Subject: RE: Meeting between Givaudan and EPA

Adam - The report, SERAS-222-DARR1-020316 - includes data from both locations. The samples were collected on different dates, so that should help distinguish.

Thanks, Sarah. We will check our availability on the proposed date and get back to you ASAP. As to the Digital Library, I only saw a report related to the sampling at the Lister site. Can you tell me when we will see the report for EPA's sampling in Clifton? Thanks.

Adam – Following up on our exchange two weeks ago: what about March 10 in the afternoon? EPA people could travel to Newark.

FYI – the data validation report for the August 2015 sampling was posted to the Passaic River Digital Library Sharepoint site today.

Thanks, Sarah. The second week of March looks good on our end. Please let us know when you have some specific dates in mind.

Thanks,

Adam

Adam – We expect to be able to provide the data report next week. For a meeting, we are now looking at the second week of March. I will propose some dates (unless you tell me that week is absolutely no good).

Hi Sarah. As we discussed the last time we spoke, we will need to push back our proposed meeting until we receive EPA's data and have a chance to review same. Do you have any updates on when that data will be available? We currently have place holders on our calendars for February 23rd and 25th. Please let me know if either of those dates would work on your end. Of course, we may have to push the meeting back further if the data is delayed further, but I wanted to get some dates to you for consideration. Please let me know at your convenience. Thanks.
